

caesarstone®

Design Samples Kit

While there are so many elements that come with designing your home, choosing your countertop should be low-stress and simple. Our sample kit can help you better visualize how Caesarstone® quartz designs will work in your home.

WE'LL SEND YOU A
Caesarstone® Design Samples Kit that includes:

A material sample of your selected Caesarstone quartz

A large sheet(s) of the same color to help you get a better idea of how the quartz surface will look in your home

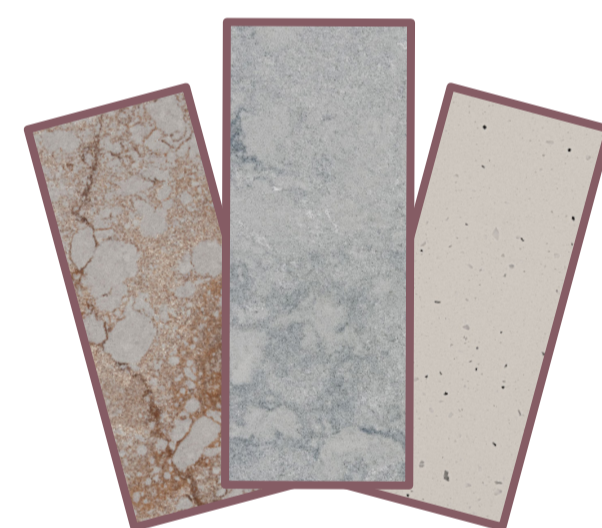

Instructions on how to get the most from your sample

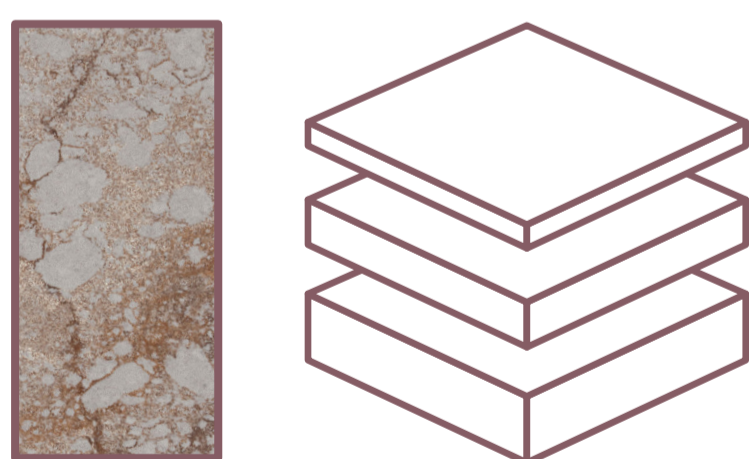

WE ENCOURAGE YOU TO
Follow these steps to get the most out of each sample:

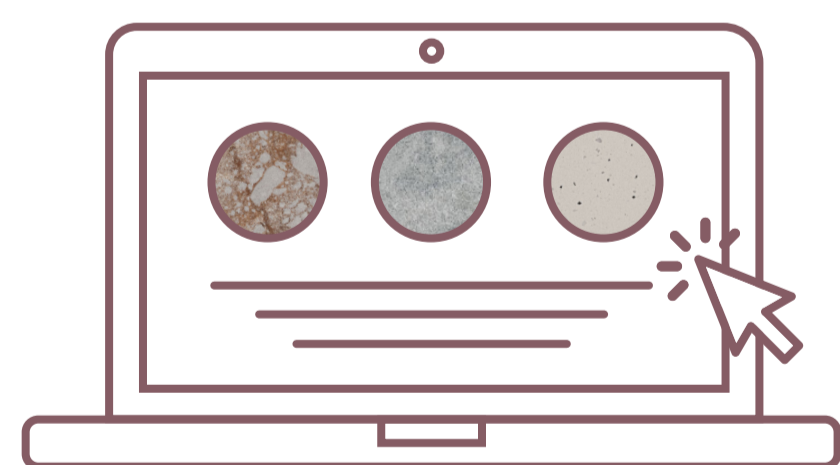

Layout the large color sheet on your intended surface and place the material sample on top to experience a greater expanse of surface color.

Encourage homeowners to view the samples under different light sources and during different times of the day

Different surfaces and thicknesses can be used in the same space.

Check out our online Visualizer to see how different colors and materials work together.

Once you find the color you love,

go to our **'Where to Buy'** webpage to find the retailer nearest you or to find an Authorized Distributor to view full slabs.
